PROFILE

I would like to contribute to your organization as a front-end web developer, leveraging my ability to develop different web applications using readily available web frameworks. With my passion for learning, I will be able to take part in empowering your team with my newly found coding expertise. I am a punctual and motivated individual who is able to work in a busy environment and produce high standards of work. I am also eager to be challenged in order to grow and further improve my web development skills.

AREAS OF EXPERTISE

HARD SKILLS

- Frontend: HTML, CSS, Sass
- Databases: MySQL, MongoDB - NoSQL, GraphQL, Apollo Server
- Scripting Languages: PHP, JavaScript
- Frameworks: Bootstrap, Laravel, React.js, jQuery, Node.js, Express.js
- SDLC Phases: Development, Test, Deploy

SOFT SKILLS

- Team player as I have worked with a team and successfully deployed projects.
- Communication skill as I have presented projects with clients.
- Curiosity and continuous learning as I have attended, and is willing to attend more trainings to enhance my knowledge in web development.

PERSONAL EXPERIENCE

ASSOCIATE SOFTWARE ENGINEER

Accenture (Nov 2016 - 2018)
- SAP Materials Management - Warehouse Management

Accomplishments:
- Successfully built,tested and deployed all projects handled as part of the SAP MM-WM team.

FRONT-END WEB DEVELOPER

Icefox Technology Incorporated (Aug. 2019 - Present)
- React.js Framework with GraphQL API and Apollo Server

Accomplishments:
- Writing well designed, testable, efficient code by using best software development practices
- Creating website layout/user interfaces by using React.js and Material UI
- Integrating data from various back-end services and databases (Apollo Express, GraphQL)
- Maintain website by fixing bugs and providing improvements on the website

PROJECT EXPERIENCE

ZUITT CODING BOOTCAMP

Barcut Booking System (Capstone Project 3, July 2019)
- URL: https://bit.ly/2SLlnpP
- Customers could book appointments and pay via Stripe from the System
- Dynamic Website
- CRUD Operations
- Environment: Linux, Git, GitLab, Windows, Xampp, Apache, NoSQL, PHP, HTML, CSS, JavaScript, Bootstrap, Jquery, Stripe, MongoDB, REST API, JSON Web Tokens, Express, Node.js, Heroku

Police Asset Management System (Capstone Project 2, June 2019)
- URL: https://bit.ly/2MogHoH
- Employees would be able to borrow types of equipment from the System
- Dynamic Website
- CRUD Operations
- Environment: Linux, Git, GitLab, Windows, Xampp, Apache, MySQL, PHP, HTML, CSS, JavaScript, Bootstrap, Sass, Jquery, Fetch API, Laravel, Heroku

Hi-Technology (Capstone Project 1, May 2019)
- URL: https://bit.ly/2ZgMpaY
- Static Website
- Mobile Responsive Design
- Environment: Linux, Git, GitLab, Windows, Xampp, Apache, HTML, CSS, JavaScript, Bootstrap, Jquery

EDUCATION

ZUITT CODING BOOTCAMP

Three months intensive training course
- April 2019 - July 2019

UNIVERSITY OF SANTO TOMAS

Bachelor of Science in Computer Science
- 2011 - 2016

ABOUT ME

I am an individual who constantly strives to become great in what I do. I believe that knowledge and experiences are what makes a person successful, that's why I am always eager to learn new things, and I am willing to step out of my comfort zone at all times. As a personal hobby, I love playing sports, specifically football, during my spare time. I have been playing this sport since I was in elementary, and it greatly helped in developing my skills to work in a team. Also, I love to go on out of town trips with my family because they mean everything to me.
